

Advance Assessments Level 3 Improvement Technician End Point Assessment
Qualification Specification

Key facts

Title:	Advance Assessments Level 4 Improvement Technician End Point Assessment
Ofqual Qualification Number	610/1815/6
Applicable Apprenticeship Standard(s)	ST0193 Improvement Technician
RQF level:	3 (= 'A' Level / BTEC Nationals)
Qualification Objective	To enable learners to engage with a project team and make valuable contributions in the delivery of change across organisational functions and processes through the delivery of improvement projects. Projects are likely to be limited in scope by a budget set at the level of the apprentice's line manager and a duration of less than one year.
Entry requirements:	Individual employers will set their own entry requirements. Please note the Gateway requirements when making this determination.
Programme duration and programme training requirements:	Minimum training duration 12 months, typically 14 months. Minimum of 20% off-the-job training.
Gateway requirements:	<p>Learners must have attained UK RQF Level 2 qualifications in mathematics and English before entry to Gateway.</p> <p>The End Point Assessment can only start once the employer is satisfied that the apprentice is consistently working at or above the level set out in the standard and provides a signed declaration* confirming this to Advance Assessments.</p> <p>The apprentice must have completed a log that references evidence* for each KSB. The log will typically include 13 to 15 discrete items of evidence. An evidence item may be mapped to more than one attainment criterion.</p> <p>The apprentice must also complete a project portfolio to evidence completion of an improvement project(s). Projects must clearly demonstrate delivery of a business improvement benefit; be completed in the employer's workplace; address substantive business problems; and follow each step of a recognised improvement methodology.</p>

Advance Assessments Level 3 Improvement Technician End Point Assessment
Qualification Specification

	The employer must submit a 'signed statement** from an apprentice's line manager to confirm authenticity and business benefit of project(s) completed.
EPA duration, following Gateway	Maximum two months. Log and project portfolio must be submitted within one month of passing through gateway.

Grades available	Fail/Pass/Merit/Distinction
Assessment methods	Multiple Choice Examination (MCE). Project Report, Presentation and Questioning (REP_Q&A). Professional Discussion, underpinned by Log (PROF_DISC).
Link to IfATE apprenticeship specification	Improvement technician / Institute for Apprenticeships and Technical Education

*Blank forms to fulfil each of these requirements are included on the Advance Assessments EPA platform, available to registered apprentices and training providers.

Contact support@advanceassessments.co.uk to register your learners, gain access to the apprentice support materials and equip each learner with a personal upload area.

Definitions:

Gateway refers to the requirements that need to be met in order for an employer to put forward an apprentice for EPA. This ensures that all apprentices have completed the mandatory aspects of the occupational standard and any work that underpins specified assessment methods, and that employers believe an apprentice is occupationally competent at the point they enter Gateway.

KSB (Knowledge, Skills and Behaviours) The Knowledge, Skills and Behaviours required to be competent in the duties described in the occupational standard published by IfATE.

IfATE is the Institute for Apprenticeships and Technical Education is an employer led organisation that supports technical education and apprenticeships in the United Kingdom, through qualifications. It is funded by the Department for Education.

IfATE Occupational Map is the diagram that delineates occupations and the expected qualification achievements along occupational routes in the UK. It is available on the IfATE website.

UK RQF is the UK Regulated Qualifications Framework that defines the levels of different qualifications in the UK.

Assessment methods (3)

1. Multiple Choice Examination (MCE)

The multiple-choice examination consists of 40 objective answer questions and is time-limited to 40 minutes. It is available on the Advance Assessments online platform. Each question presents the candidate with four options (a) – (d). There is one correct answer and three distractors in each question. Candidates may only select one answer.

Each correct answer gives a score of one mark. All other responses, including non-completion, score zero marks. This gives a total possible score of 40.

Candidates may access their training materials or reference books during the examination, but may not access any online materials.

Multiple-choice examinations will be invigilated by Advance Assessments appointed invigilators. Invigilators will confirm the identity of the candidate before the examination starts.

2. Project Report Presentation and Questioning

Apprentices are required to deliver a presentation to an Advance Assessments assessor in order to assess the apprentice's competence and excellence in the KSB requirements assigned to this assessment method.

The presentation audience must include one employer representative. The employer must not amplify or clarify points made by the apprentice.

The project report presentation will have a duration of 30-40 minutes and will be followed by 25-25 minutes of questioning from the assessor. This gives a maximum duration of 75 minutes.

3. Professional discussion underpinned by Log

Apprentices are required to complete a professional discussion with an assessor in order to assess the apprentice's competence and excellence in the KSB requirements assigned to this assessment method.

The professional discussion audience must include one employer representative. The employer must not amplify or clarify points made by the apprentice.

The professional discussion will have a duration of 40-50 minutes. Typically, the assessor will ask 13 to 15 open questions in the assessment.

B5. Safe Working Maximum grade attainable: Pass	<ul style="list-style-type: none"> Demonstrate how they have ensured the safety of self and others Challenge safety issues 			PROF_DISC

Overall grade calculation

Assessment methods make the following contributions to the overall grade:

Multiple Choice Examination	Project Report, Presentation and Questioning	Professional Discussion, underpinned by log
MCE	REP_Q&A	PROF_DISC
10%	60%	30%

Every method of assessment must achieve a PASS grade in order to pass the EPA overall.

Each criterion, in each grading category, must reach the required level to achieve an overall PASS / MERIT / DISTINCTION for an assessment method.

Grading for Multiple Choice Examination

A 40-question examination with 1 mark awarded for each question correctly answered.

Examination time-limited to 40 minutes. The examination is online and is auto-marked.

A score of less than 25 is graded as a FAIL.

Examination grading

Multiple Choice Examination (maximum obtainable = 40 marks)		
Pass Grade	Merit Grade	Distinction Grade
25 to 29 marks	30 to 35 marks	36 marks

Advance Assessments Level 4 Improvement Practitioner End Point Assessment

Document Revision History

Following improvement identifications and review with colleagues, the Assessment Manager is responsible for revisions of this policy/procedure and completion of the table below, before issue of the amended policy/procedure.
